Ukrainian — Native

English — B2 Professional

PROFILE

WordPress/WooCommerce Full-Stack Developer with **18+ years** of professional experience. I specialize in **Figma-to-WordPress builds (Elementor, Bricks, Gutenberg), custom plugins, WooCommerce extensions, API integrations, and React/Next.js applications**. Strong focus on stabilizing legacy systems, performance and security rescue, WCAG 2.2 accessibility, and building solutions that fit existing business workflows. Consistent positive feedback from clients in USA, Europe, and Australia.

KEY PROJECTS

Recruitment Site + JobAdder Integration (oak-tree.tech)

Figma | Elementor | Vite | PHP | JobAdder API | OAuth 2.0

Figma-to-Elementor build with JobAdder integration: job ads synced into a CPT with AJAX filters, site applications pushed to JobAdder as candidates with screening answers and attachments. Same flow shipped AudioVS WooCommerce store and Kane Exceleris.

Multi-Tenant CRM (SaaS)

Next.js | TypeScript | Prisma | PostgreSQL RLS | Vercel

CRM in production for a veterinary clinic: tenant isolation via Row-Level Security with boundary tests, industry modules, invoicing and usage metering, email provider failover, business sites on subdomains, CI on every push.

Divi → Bricks Migration + WCAG 2.2 Auditor

Bricks | Docker | Playwright | axe-core | WordPress Abilities API

Migrated the Wyoming State Treasurer's Office site to Bricks with WCAG 2.2 remediation. Built an external auditor (axe-core, keyboard/reflow checks, PDF validation) and a plugin that maps findings to Bricks elements.

WooCommerce VAT, Voucher & Billbee Fixes

WooCommerce | Billbee API | Reverse-Charge VAT | Production Fix

Fixed voucher/cart totals and intra-Community reverse-charge orders (net shipping, 0% discount mapping in Billbee) on a live German store without downtime, verified end to end in Billbee.

WORK EXPERIENCE

PHP / WordPress / React Developer

Dec 2025 – Present

oak-tree.tech

> Figma → Vite/BEM → WordPress/Elementor builds for an Australian agency (AudioVS, TLR Contracting, Kane Exceleris)
> Integrations: JobAdder API (OAuth, jobs sync, applications), WooCommerce catalogs, GA4/GTM, Instagram feed
> React + Vite + Firebase/Firestore: Networking Executives admin dashboard and user platform (review queues, audit trail, CSV export, SEO prerender)
> WordPress plugins: LibCal calendar (OAuth API), Gutenberg blocks, member directory moderation, REST deploy endpoints

WordPress & Shopify Developer

2023 – 2025

Catecut | AI Fashion Tech

> Built AI-powered WordPress plugin for personalized clothing recommendations using OpenAI API
> Developed Shopify app with custom Liquid templates and GraphQL API integration
> Implemented JSON-based decision engine for product matching algorithm
> Created admin dashboard for managing AI parameters and analytics tracking

Russian Native

CLIENT REVIEW

> *"Valentin is one of the few developers who actually understands the business logic behind the code. He fixes problems without breaking production and communicates clearly."*

WordPress Developer
2020 - 2023

YellowFever LLC.

- Delivered 30+ custom WordPress projects: themes, plugins, WooCommerce extensions
- Built headless WordPress setups with React/Next.js frontends using REST API & GraphQL
- Integrated payment gateways (Stripe, PayPal, WooPayments) with custom checkout flows
- Connected third-party services: SendGrid, Twilio, CRMs (Salesforce, HubSpot, Zoho)
- Production debugging, performance optimization, and safe refactoring of legacy codebases
- Developed custom Gutenberg blocks and FSE (Full Site Editing) themes

WordPress Developer & Project Manager
2016 - 2020

APN Coders

- Led remote team of 5 developers on enterprise WordPress and WooCommerce projects
- Architected scalable e-commerce solutions handling 10K+ daily visitors
- Managed project timelines, sprints, and deliverables using Agile methodology
- Direct client communication in English (USA, EU, Australia) - requirements gathering, demos
- Code review, mentoring junior developers, establishing coding standards

IT Specialist, 30th Mechanized Brigade
2014 - 2016
